

# FEEDPro™

BY FEEDLOGIC

## The Industry's Leading Swine Research Solution

### Intelligent Feed Delivery

The core of the FEEDPro system is an intelligent feed delivery unit. Precise amounts of feed are automatically loaded and can be delivered to any feeder in any quantity. Multiple diets can be managed.

### Multiple Applications in Real-World Commercial Settings

Gestation

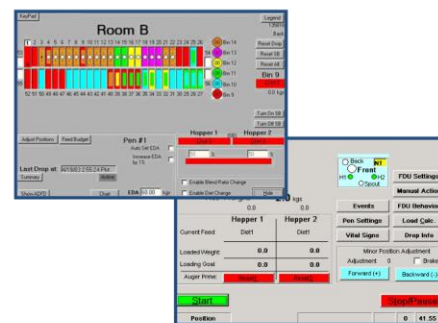

Farrowing

Grow/Finish

### Powerful Software

FEEDPro includes control software which makes it easy to set up and manage trials which follow correct protocols. System dashboards and quick reports provide the user with management tools to monitor feeding behavior and gain insights as trials progress.

### Remote Monitoring & Automated Data Collection

Users with Internet access can check on system status or download data at any time.

# ENGINEERED SOLUTIONS

## Custom Designs

Rail layouts suited to the design of your building.

One-Room/Two-Bin Layout

Two-Room/  
Sixteen-Bin  
Layout

## Easy Installation

FEEDPro can be installed in new or existing buildings with limited structural modifications.

# PAYBACK

- ✓ *Reduced labor cost per trial*
- ✓ *More trials possible in shorter time*
- ✓ *Uncover money-saving feeding strategies which can be applied in other commercial barns*
- ✓ *Ability to test equipment performance (feeders, waterers, etc.) before committing to large scale purchases*
